District Developed Special Education Service Delivery Plan

The Iowa Department of Education requires all public school districts to create a Special Education Service Delivery Plan. The plan must be updated every five years and submitted to the state. Districts must outline how services are organized and provided to eligible individuals, how caseloads of special education teachers are determined and regularly monitored, and the procedures for resolving caseload concerns. The plan must also include the process used for measuring student progress and overall plan effectiveness.

This past fall a committee comprised of parents, special education and general education teachers, administrators and AEA representatives met and drafted an initial plan. The next steps in plan development are listed below:

Overview of Steps

Step	Action
1	The district school board approves the development of the plan and the individuals who will serve on the development committee.
2	The committee meets for plan development.
3	Plan is uploaded to school website and available for public comments.
4	The committee receives public comments, considers public comments, and summarizes to the Board how those comments were considered.
5	The AEA Special Education Director verifies plan compliance.
6	The district school board approves the plan prior to adoption. The plan is included in the designated areas of the Comprehensive School Improvement Plan (CSIP) ongoing.
7	The plan is reviewed in connection with the 5-year accreditation cycle or earlier if required by determination given by the state.

OPEN ENROLLMENT DEADLINE

Parents/guardians considering the use of the open enrollment option to enroll their child/children in another public school district in the state of Iowa should be aware of the following dates:

March 1, 2020: the last date for regular open enrollment requests for the 2020-2021 school year, except for "good cause" reasons or kindergarten applications.

Kindergarten applications must be filed on or before September 1 of the school year in which open enrollment is requested. (September 1, 2020 for the 2020-2021 school year).

PARENTS—CHECK LUNCH BALANCES!

Low lunch balance emails are sent to parents. Please make sure your email address in our database is correct in order for you to receive these notices. Students need to maintain a positive balance in their lunch account. If at any time you would like to complete a free and reduced price lunch application, contact the Superintendent's office. If you have any questions regarding your student's lunch account, please contact any of the school offices.

FROM THE ELEMENTARY PRINCIPAL'S DESK

February is often regarded as the month for love and kindness. This Valentine's Day, children and families all over the country will be expressing their love and kindness for their friends and loved ones. While we will be holding our Valentine's parties on the afternoon of the 14th this month, teachers and staff promote kindness, love and other character building attributes all year long.

New this year, is a school-wide character building initiative that's been implemented. This initiative features a character word of the month. Weekly classroom guidance lessons are centered around the character word and allow opportunities for all students to learn and grow academically, socially/emotionally and in character development. A fun and entertaining celebratory awards assembly is held at the end of the month for the entire school. Students are nominated for individual character awards by the teachers and staff throughout the school. There were twenty student awards given out last month for students that exhibited a high level of kindness and generosity. This upcoming month, students will be recognized for being trustworthy.

If you have any questions or concerns, please don't hesitate to contact me at the elementary school.

Ms. Kay, Elementary Principal

TREYNOR CSD TEAMMATES

Treynor CSD is looking forward to implementation day of the TeamMates Program here in Treynor on March 5, 2020. TeamMates was founded by Tom and Nancy Osborne in 1991 in an effort to provide support and encouragement to school aged youth. The school aged youth are directly supported by their mentor.

Mentors are volunteers from the community who dedicate themselves to making a difference in the life of a young person and give youth a sense of hope, purpose and vision. Mentoring is making an investment in the future by spending up to one hour each week with a student and showing your interest in their life. By doing this you can increase the likelihood that the student will graduate from high school and become a contributing member of society.

Each mentoring relationship is unique. However, the sessions happen weekly for up to an hour and the focus ranges from helping with homework, to sharing a hobby or special interest, to simply sharing thoughts and ideas. Sessions happen within the school day time frame, and can be during, before or after school.

If you care about our youth, are able to meet up to an hour a week with a student, and can be a positive role model then we'd like to encourage you to apply to be a mentor. You will be making an investment in that student's future. To become a mentor, visit the [Mentor Application page](#) to fill out an application.

DISTRACTED DRIVING PRESENTATION

We had a presentation for all of our high school students and the topic was around distracted driving. Jacy Good and her husband, Steve Johnson, advocates for phone-free roads after Jacy experienced the results of distracted driving first-hand. She was on her way home from her commencement ceremony with her parents when their car was struck head on by a semi-truck. Her parents were killed, and she was critically injured.

Jacy suffered a broken collarbone, two broken arms, a shattered pelvic bone, a broken leg and a traumatic brain injury. She was paralyzed and in the hospital for over 2 months to which she has no memory. She then had to go to a rehabilitation facility where she stayed for another 2 months relearning how to walk, speak, eat, etc. After leaving the rehabilitation Jacy wanted to learn more about the accident and what happened so she decided to google it. This is where she learned that a high school student had stopped at a red light, but became distracted and then went through the light, turning left onto the highway which caused a semi-trailer to collide head on with her family.

Both presenters shared in great detail their thoughts and plans leading up to this tragic event and how it has affected both of them since. They also shared data around what distractions actually do to the brain while driving as proven by science and research. So many lives are being lost by distracted drivers. "Crashes happen all over the place every day," Johnson said. "It's the people in these crashes and the people who love those people who are really affected."

TREYNOR SPEECH COMPETES

Speech contests have begun! On January 25th the Treynor Speech Team competed in the large group speech contest at Fremont-Mills. We were represented by eleven groups comprised of forty students. Four of the groups received excellent ratings. They are as follows: Ensemble Acting - The 4th Digit, Ensemble Acting - You've Offended Mrs. Smith, Musical Theatre - Two Peas in a Pod, and Short Film - The Matchelor. Seven of the groups received a superior rating and will be advancing onto state contest at Waukee on February 8th. Those groups are as follows: Group Mime - Television Collision; Group Improv - all three groups; Ensemble Acting - Accused of Comedy; Reader's Theatre - Finding Anna; and the One-Act Play - Alien Fish. (It is worth noting that the state office released a directive asking judges to be more discerning about the ratings they were giving so that they reflected the various levels of accomplishment. This resulted in many more "II" ratings on the board this year.)
