

TRANSPORTATION IN INCLEMENT WEATHER

School district buses will not operate when weather conditions due to fog, rain, snow or other natural elements make it unsafe to do so. Because weather conditions may vary around the school district and may change quickly, the best judgment possible will be used with the information available.

The final judgment as to when conditions are unsafe to operate will be made by the superintendent. The superintendent will be assisted by the actual "on location" reports of the drivers.

Several drivers each year will be specially designated to report weather and road conditions by bus radio when requested to do so. Drivers, students, families, and employees will be notified via local media and/or the district's website and or the district's electronic notification system when school is cancelled or temporarily delayed. When school is cancelled because of weather anywhere in the school district, all buildings will be closed.

When weather conditions deteriorate during the day after school has begun, cancellation notices will be announced via local media and/or the district's website and or the district's electronic notification system. Students will be returned to their regular drop-off sites unless weather conditions prevent it. In that case, students will be kept at or returned to school until they are picked up by the parents.
