Together We Transform Lives

TEAMMATESSM

MENTORING

A Note From Ms. Kay

Spring has sprung in our building and we are blooming with so many great learning opportunities and events.

With all this excitement, I encourage parents to take a few minutes each day to visit with their child about these events and their school day.

Parental interest and involvement is the key to student success in school!

Treynor formed a chapter of the Teammates Mentoring Program in 2019. This program has grown over the last couple of years.

Elementary News

There are some exciting things coming up this month! The 1st grade music concert is on the 21st, and Night of the Arts is being held on April 25th.

We've finished up with ISASP testing and are waiting for the results. We will share the results with families soon!

Congratulations to Austin LaMantia for getting 3rd place in the Regional Hoop Shoot. He made 21 out of the 25 hoops attempted. Good job Austin!

Remember to bring money for TS Bank accounts every Tuesday! If your kid(s) doesn't have a bank account they can get a slip from Mrs. Boswell.

Have a great Easter break from April 15-18.

By: Zoey and Joslyn

Dates to Know

- April 5, 12, 19, 26
Bank Days
- April 6, 13, 20, 27

- April 21
1st Grade Music Concert
- April 25
Night Of The Arts
- April 29
Kindergarten Round-Up

Specials

Mrs. Campbell will be working on some baseball and softball activities with different grade levels. She will also be preparing for the end of the year activity days. More details to come on these.

Miss Weis will be working on final details for all of the projects and preparations for Night of the Arts. Mr. Stinman continues to practice for the 1st grade concert. He is also working on different music concepts and methods with the other grade levels.

Extras

Mrs. Endriss is preparing 4th & 5th grade TAG math students for a math competition. She is continuing to work with STEM groups in all grades.

Mrs. Konz's students have been working very hard on both state and alternative assessments to show the growth they have made this year.

Mrs. Nelson will be doing a unit on research skills with 3rd graders in technology. She will also be having students vote for the Iowa Goldfinch and Children's Choice Award books during library times.

Kindergarten

Kindergarten will be going on several field trips. Their first field trip is to the Rose Theater to see the production of Giraffes Can't Dance on April 14th. Next on April 25th they will go on a field trip to Stephen Fite Children's concert in Plattsmouth, NE. And then April 29 there will be a kindergarten round up for future kindergartners. No school for current kindergartners on this day.

By Kendall & Abby

Third Grade

This month they will be learning about weather in science.

They will also be learning shapes and perimeter in math.

In reading, they will be learning about the main idea of the stories they read.

By: Talin and Myles

First Grade

First grade is measuring and learning about a variety of shapes in their math unit.

They also started a Lil' Card Reading Club to keep the motivation of reading going.

First Grade is also doing their music program on the 21st. The theme is: *Planting a Rainbow*, by Lois Ehlert. The concert will be dedicated to her because she passed away last year.

By: Charlie and Jarret

Fourth Grade

In social studies, students will be completing the Industrial Revolution Unit. They will also be starting science with the human machine unit including muscles, the skeleton, eyes, and brain. For their escape room they will have to get the eggs from the barn to the coop.

Next, they will be starting their last writing unit, fictional narrative writing. Students will be able to write a story they made up. They will also be reviewing dialogue and looking at poems, as well as writing their own poetry.

Lastly, they will be continuing to compare, order, and round multi-digit whole numbers using the standard algorithm. Students will also start Unit 5 with measurements and conversions.

By: Bailey and Boston

Second Grade

In math, they will be working on Geometry, time, money, and adding and subtracting within 1,000. They will also be doing a mystery number each week.

They will also be working on a social studies activity where the kids get a few clues each day to figure out a location. This is called "Where In The USA is Penelope?" She's in a different state each day.

By: Avery and Irelyn

Fifth Grade

In April there is not a lot to share, but in May there will be more to inform you about.

In science/social studies, they will be learning about water and then preparing a mock trial based around this topic.

In writing they will get a topic to write about, and then do research to write a speech. Speeches will be judged to find the top 3 from each fifth grade class. The top speeches will be read to the entire 5th grade.
