

Treynor Elementary News

Issue No. 3 | February 2022

A Note From Ms. Kay

February is known for being the month of love. What better of a time than now to show some love for Treynor teachers and staff. If you would, please take the time to email or send a card to your child's teachers. This includes their classroom teachers as well as all the other teachers and staff members that help make our school a great place for your child! ❤️❤️❤️

Mr. Stinman added 6 more Xylophone carts to the classroom. This project started in January 2018 with 4 instruments. He now has 25, enough for every student in class! He says, "We can't thank the Treynor Community enough for your love and support of our school and our elementary music program!"

Elementary News

In the month of February there are many things going on. Invention Convention will be on February 11. Also, progress reports will be coming home February 11. Class Valentine's Day parties will be happening February 14 in the afternoon. Remember to bring money for the bank on Tuesdays. Continue to dress your kids in warm clothes with our unpredictable weather. February 21 is a day off for students so teachers can have a work day. February 22 is being called "Twos Day" because of 2-22-22 being on a Tuesday. More details to come on some special events happening on this date!!

By: Carter and Irelyn

Specials

Mrs. Campbell will be doing a jump rope unit. Students will participate in the 1-minute, 2-minute and 3-minute challenges, so PRACTICE! They will also be focusing on heart health.

Miss Weis had to shift her clay unit to February. She is hoping to have everything ready in time for Night of the Arts.

Mr. Stinman is continuing to practice for upcoming programs and working on a variety of music concepts with the different grade levels.

Extras

Mrs. Endriss is working with 4th graders to make final plans for the Invention Convention. 5th graders are continuing their work on the yearbook, while 4th graders are doing great with the newspaper.

Mrs. Currin will focus on kindness and friendship in her guidance lessons. She is also helping us kickoff our American Heart Association Heart Challenge Campaign.

Kindergarten

Kindergarten students will be celebrating the letter P the first week of February. They will do a presentation about Peru, and also have a pajama party.

They will be having their Valentine's parties on February 14th. They will have a "Twos Day" celebration on the 22nd.

In math, they will continue their addition and subtraction unit and work on decomposing numbers to 10.

By: Talin and Myles

Third Grade

Third grade students will be starting their unit on fractions. They will learn about fraction number lines, equivalent fractions, and comparing fractions.

Students will also be finishing their opinion writing pieces, and then start their informational text in reading. They will also be looking at text features and finding text evidence.

Science classes will be wrapping up their forces unit. Then, they might start their social studies unit on Westward Expansion.

Valentine's parties will be on February 14th.

By: Zoey and Joslynn

First Grade

First grade will be going on a field trip to the Rose Theater to see a play on February 4, 2022.

Teachers are going to work on benchmarking in reading throughout the month to help guide their lessons to fit their student needs.

In math, students are learning about tens & ones and more about place value. In science, they're learning about different sounds!

By: Charlie and Jarrett

Fourth Grade

In fourth grade science, kids will be helping Cupid in their Valentine's monster's escape room. They will be doing a birth of rocks science unit involving volcanoes, landslides, and erosion.

In math, students are going to add and subtract up to 1 million, as well as learn how to compare and round large numbers. They will also be learning about the two number places after the decimal.

In writing students will be continuing to work on their opinion writing. They will be able to pick their own topic. They will then tell their opinion, give three reasons, and support those reasons with examples.

They will also be having their Valentine's parties.

By: Bailey and Boston

Second Grade

This month second graders will be doing a zoom field trip with the Children's Museum.

In math, second graders will be learning different strategies with number lines.

Valentine's parties, with school provided snacks and fun activities, will be held on the 14th.

By: Lyla, Avery and Dakota

Fifth Grade

In writing, the 5th grade students will begin opinion writing pieces.

In science, they will wrap up their unit on why dead things disappear.

Finally, in math they will work on helpful division strategies.

An exciting Valentine's Day party will be held on the 14th.
